Installation Guide

1. Included In This Box

C2Pro Time Attendance device
Quick Guide and Software CD
Extended Function Connector Cable
Ethernet Cable
C2Pro Charger
Screw Accessories

2. Mount the C2Pro to Wall

- * Install the mounting panel on the wall
- * Plug in the charger and Ethernet cable
- * Slide the C2Pro down onto the panel and secure with the screw on the bottom of C2Pro

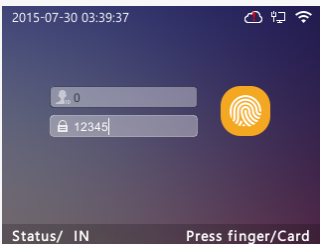

Basic Operation

1. Turn on the C2Pro

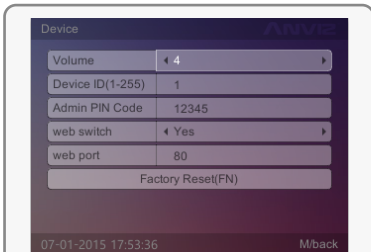

Plug in the power supply and wait for the C2Pro boot up.

Press [M] key to go to Admin menu. Input "0" as ID and "12345" as password to log in.

* 0/12345 is the default Admin ID and password. You can change to your own the password or set other user as Admin later.

Browse the Setting \ Device menu to view or edit the Device ID and Admin PIN Code.

Go to Setting \ Time menu to set up date and time.

2. Add Users to C2Pro

Go to User \ Add menu. Follow the menu to input ID, name and password. Move the cursor to "Enroll FP" section and click [OK] key.

Scan the same finger twice to enroll the fingerprint.

* RFID Card is the optional feature. If you have the card option and want to enroll the card, use the up & down key to move the cursor to card number field. Swipe the card on the face of right side of C2Pro. The card number will be displayed.

3. Input Characters

When you edit name or WiFi password, you may need to input characters. Here are the steps to input characters:

- * Using the up and down arrow key to move the cursor to the field.
- * Press [Fn] key on the keypad, a character input window "Aa" will be displayed on the bottom of the screen. Then press the number/letter key. A second window will appear and you can select the letter by number key .
- * Press [IN] key on the keypad, the character input window will toggled between "Aa", "123", ".!?" and "拼". You can select the window to input the letter, number or special symbols.

4. Verity the Fingerprint

■ Correct method :

Place finger in the center of the sensor.

Place finger flatly and smoothly on the sensor.

■ Incorrect method :

Finger not placed on the center of the sensor

Finger placed inclined

Use of fingertip

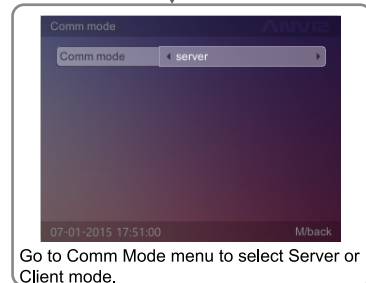

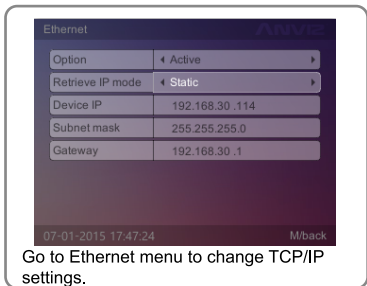

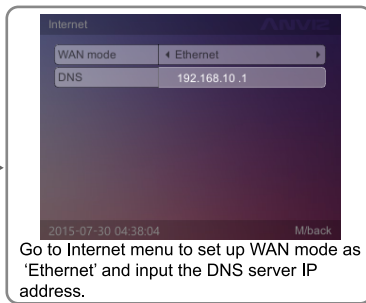

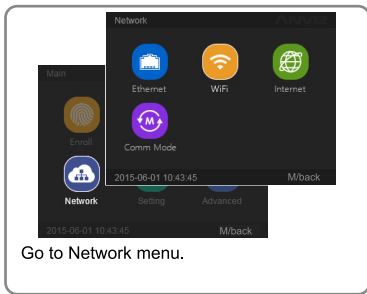

Note:

1. It is better for each user to register two finger prints in case of one finger can't work.
2. Place finger flat and make sure the center of the finger is on the center of scanner window and press a little hard on scanner, so it can scan as large finger area as possible to extract enough minutia.
3. Keep the angle and direction of finger the same each time placing on scanner.
4. If your finger has sweat or water, please dry it first and then register the finger.
5. If your finger is too dry, make it a little wet or touch the forehead to increase the wetness of the finger, press a little hard on scanner. (The dry finger can cause the finger image not coming out clear enough.)
6. Avoid the callus, peeling, or injury of the finger to ensure the register and identification successful.
7. You can register the thumb first, and then index finger or middle finger to increase the precision.

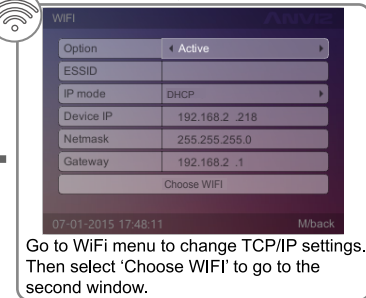

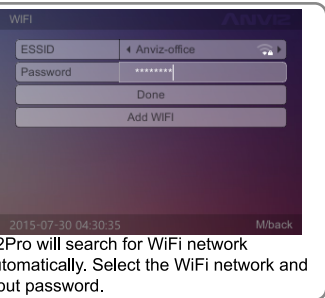

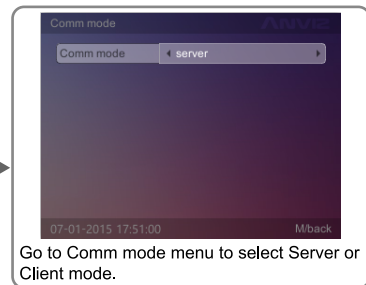

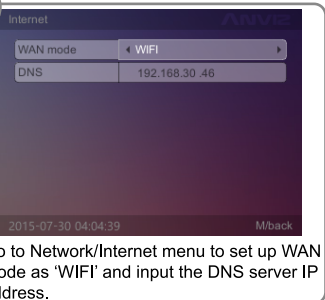

5. Setup the C2Pro Communication

- * Go to Network \ Internet menu to select Ethernet or WiFi
- * Go to Network \ Communication Mode to select Server or Client mode
- * Go to Network menu to setup Ethernet or Wifi parameter according to your network settings
- * Ping the IP address of C2Pro from the management computer. Make sure the Ping is successful

5.1 Ethernet Settings

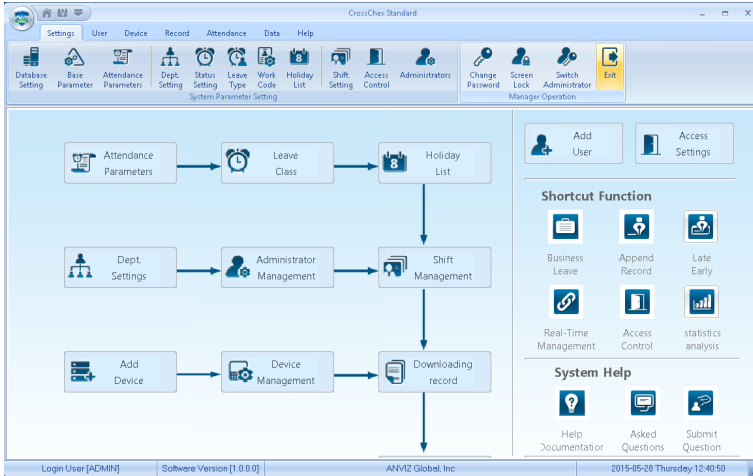

5.2 WiFi Settings

Working with Management Software

1. Install the Management Software on Computer

Put the CD in the management computer. The installation program will run automatically.

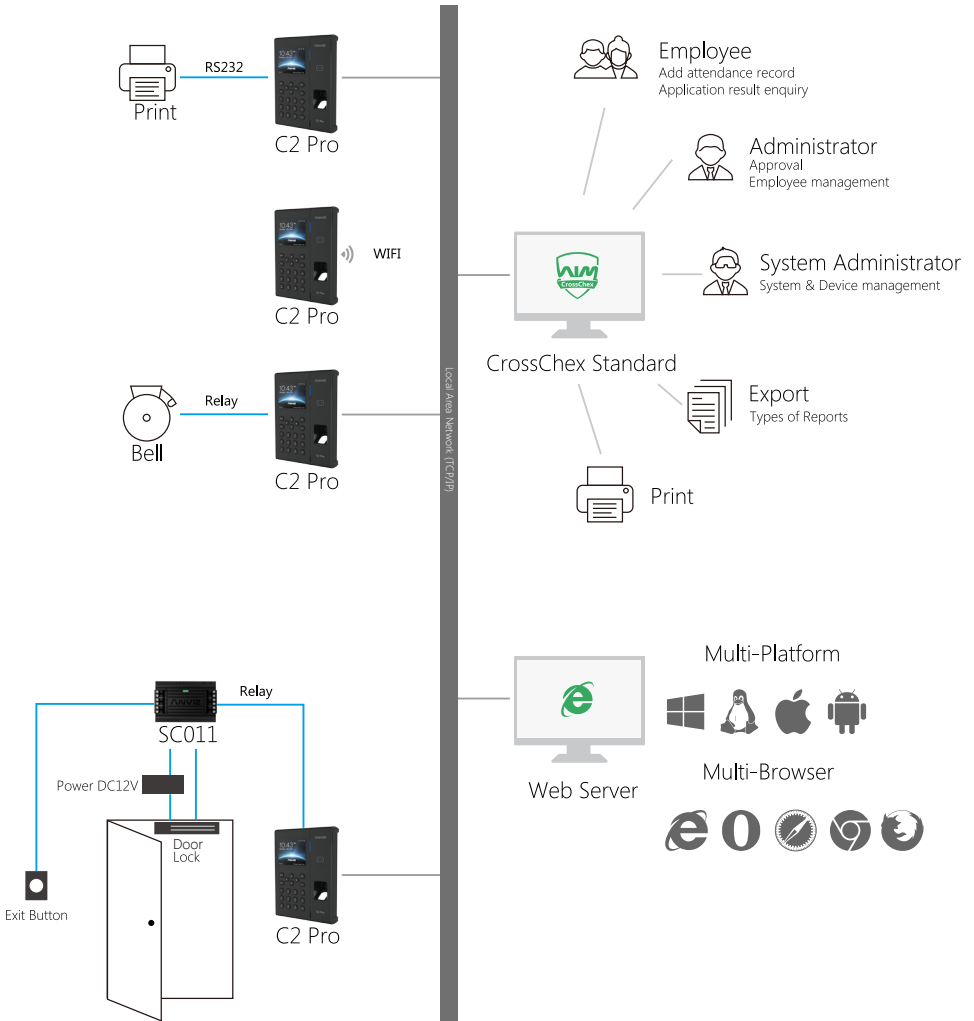

2. Enable Communication between C2Pro and the Management Software CrossChex

- * Turn on management software CrossChex
- * Go to Device tab. Search and Add the C2Pro to management software CrossChex
- * Click Synchronize Time button to communicate with C2Pro. If Synchronize is successful, the device icon will turn to blue

3. The Management Software CrossChex Features

- * Device \ Backup User: Download user info from C2Pro to CrossChex
- * Device \ Download Records: Download records from C2Pro to CrossChex
- * User \ Modify: Edit name or other user info. Then click "Upload User" to Upload user info to C2Pro device
- * Record \ Search: Search and view the records
- * Attendance: Calculate, Search results and Generate reports
- * Data \ Backup Database: Backup Database
- * Setting \ Shift: Set up Time Table and Scheduling
- * Device \ Device Parameter: Set up device, Clear records on C2Pro or Reset C2Pro to factory settings

Connect C2Pro to your Network
